

# Daisy Cabin

In order to help combat the spread of coronavirus and keep our guests safe and well, we have adopted the following practices to follow government cleaning advice for non-healthcare environments:

- In all spaces, high touch, hard surfaces will be deep cleaned twice and disinfected.
- All linen will be washed at the hottest water setting before a guest's arrival.
- Check-in times may be delayed to allow increased time for cleaning between stays
- Self-check in will be enabled to ensure social distancing during stays
- All group spaces or shared facilities will be set up so that guests can socially distance easily.
- Additional measures in place to allow guests to practise good hygiene throughout their stay with extra stocks of disinfectant, cleaning supplies, hand sanitisers and soap.
- The additional measures we have taken to reduce risk have sadly included the removal of all high touch and porous items such as board games, books and guest information booklets.

Please, please, please be responsible and do not travel to us if you have any symptoms prior to your visit or if you have knowingly been in contact with someone who has tested positive for the virus.

Individually we all have a personal responsibility to ensure that we minimise the spread of the virus. By working together we can all stay safe, beat the virus and so soon return to the easy way of life that we knew before.
